

WHO WE ARE: CI Hear is an Internet listserv and website created to support both people who are looking for information on Cochlear Implants (CI) and those who have them.

WHAT INFORMATION IS AVAILABLE: Our website provides a wide range of resources from how to cope with hearing loss, what assistive devices are available to information on CI's and learning resources for CI users.

WHY CI HEAR: The CI is a miracle of modern technology for people who were once told that there was no hope of hearing. After personally living with hearing loss or with someone you know, restoration of sound with a CI can be a wonderful journey. CI Hear offers hearing loss support, information about the CI and/or sharing experiences both good and bad. Questions? Information? Support? New Friends? You have found them in one place and that is CI Hear.

HOW TO FIND US: On the web at <http://www.cihear.com> or join the listserv by sending a blank e mail to: CIHEAR-SUBSCRIBE-REQUEST@TR.WOU.EDU
